THE EUROPEAN COMMISSION,

As the architecture and reference framework has evolved significantly since the adoption of Implementing Regulation (EU) 2025/1569³, Regulation (EU) 2025/1569 should now be amended accordingly to align it with the new standards and specifications.
- (2) In accordance with the objectives of Regulation (EU) No 910/2014, a number of standards have been selected to meet the requirements applicable to the issuance, management and verification of electronic attestations of attributes. These standards should reflect established practices and be widely recognised within the relevant sectors. Where necessary, these standards should be adapted or complemented in order to ensure a high level of security and integrity of electronic attestations of attributes, while facilitating cross-border interoperability and the effective functioning of the internal market.
- (3) Regulation (EU) 2016/679 of the European Parliament and of the Council⁴ and, where relevant, Directive 2002/58/EC of the European Parliament and of the Council⁵ apply to all personal data processing activities under this Regulation.
